## Redefining classrooms with iPad

### Building teacher confidence with digital literacy in the curriculum

With the recent implementation of the new Science and Digital and Design Technologies curricula, now is the ideal time to digitally up skill your teaching staff.

With a focus on pedagogy, curriculum and deconstructing STEAM skills for every day implementation in the classroom, these courses are designed for those complete novices to Apple as well as those wanting to expand on existing knowledge and skills.

## Simone Maciel

Apple Professional Learning Specialist
